# Stord One
WAREHOUSE

Stord One Warehouse is a scalable, cloud-native warehouse management system designed exclusively to simplify warehousing, inventory management and order fulfillment for omnichannel brands and Third Party Logistics (3PL) providers. For the first time, streamline your operations to drive workforce productivity and boost customer experience with an easy-to-use platform. Built by operators, for operators.

WHO'S IT FOR

3PLs, warehouse operators and omnichannel brands rely on *Stord One Warehouse* to support their B2B and DTC/e-commerce needs.

Select *Stord One Warehouse* Customers

Snackpass · LegendZWay DISTRIBUTION SOLUTIONS, LTD. · G.O.S.S. industries international inc · NEILL cartage → · ASW

Lynx3PL · Chipman Relocation & Logistics · FW LOGISTICS · FDR WAREHOUSE

"Stord One Warehouse's proven very easy to use and learn by our team. We're already seeing significant time savings in our outbound processing, cutting required time by about 50%, greatly improved accuracy in our inbounds, and are much better able to track our inventory and pallets. The Stord team has been super helpful, and got us up and running in no time. We look forward to bringing more of our customers onto the Stord platform."

SAM MANLEY, DIRECTOR, BUSINESS DEVELOPMENT, G.O.S.S. INDUSTRIES INTERNATIONAL

The *One* System to Automate Your Warehouse

Stord One Warehouse is a cloud-based enterprise-ready WMS for omnichannel (B2B & DTC fulfillment) 3PLs looking to **save on labor costs, improve warehouse operations,** and outcompete with modern technology. Transform your operation to efficiently manage multiple clients within your building in a completely digital, intuitive, paperless environment.

Stord One Warehouse delivers **pick, pack and ship** functionality via a broad range of fully-featured software components in one easy-to-use, easy-to-implement application:

Reported Operational Improvements
### *(vs previous WMS)*

3.29x
RATE AT WHICH DAILY ORDER SHIPPED VOLUME INCREASED

75%
TIME REDUCED IN PACKOUT PROCESS

Are you ready to transform your warehouse operation?

Omnichannel Fulfillment	Dedicated PackStation App	Parcel Optimization	Warehouse Execution
3PL Billing *for 3PLs only*	3PL Customer Portal *for 3PLs only*		Shipping Document Branding
Connectivity			

Inbound Order Management
Radically improve your receiving process with paperless and mobile scanning features, and detailed operational visibility. Easily manage POs and returns, and capture and track important attributes (e.g., lot/serial numbers, expiration/manufacture date) to remain compliant to your demanding customer needs.

Inventory Control
Perform real-time tracking and monitoring of stock levels with real-time inventory visibility to help reduce stockouts and inventory losses.

Omnichannel Fulfillment
Gain control of all customer orders to seamlessly fulfill orders from multiple sales channels with precise order accuracy. Manage and process orders from any computer, tablet, or mobile scanner.

Optimization
Optimize delivery methods to cost and time needs, automatically generate bills of lading, and effortlessly configure/create parcel shipping labels to meet any specific requirements.

Dedicated PackStation App
Accelerate packing process with simplified workflows for each specific fulfillment channel to reduce shipping errors by quickly checking and verifying items before shipment.

3PL Billing
Capture every billable activity and automatically generate accurate and timely invoices.

3PL Customer Portal
Access customer order info for streamlined customer service and provide easy access to your brand customers to self-service their own customer issues.

Connectivity
Connect to internal or third party systems, from sales channels like e-commerce storefronts, marketplaces and retail partners to financial systems like ERPs.

ADD-ONS

Warehouse Execution
Increase warehouse efficiency beyond traditional WMS with higher levels of picking orchestration and optimization, autonomous waving, and exclusive order workflows for omnichannel fulfillment.

Shipping Document Branding
Customize and brand packing slips.

Key Benefits
Purpose-built for 3PLs and Warehouse Operators to

Improve operational efficiency in order routing, inventory tracking, waving and cycle counts	Boost workforce productivity through streamlined & automated fulfillment processes	Gain visibility and control into all inventory within your walls with real-time tracking and reporting
Track performance and resolve inefficiencies with scan-enabled tracking	Manage both B2B and DTC fulfillment at scale from a single system	Rapidly onboard and train new employees to drive time-to-value
Easily connect to order management and other external systems	Track key metrics to proactively address operational issues and prevent customer problems	Increase profits and gain a competitive edge by tracking VAS such as kitting & work orders
